

Welcome To Macro Ops

Alex here.

Our team has 3 primary directives:

1. Assist you in reaping profits from global markets
2. Train you in the art of market speculation
3. Provide you with a solid community of diehard traders and investors

Directive #1: Assist You In Profiting From Global Markets

We're global macro traders. That means we go anywhere and trade anything. Stocks, futures, bonds, currencies, foreign, domestic... it doesn't matter. If there's positive asymmetry, we're there. The goal is outsized profits for you and the rest of our team.

Let's get you briefed on the current investment theme we're tracking: **Populism and Europe's False Trend**. The following article will explain the situation and how you can profit:

Our other free research can be found on the [Global Intel page](#). And if you're interested in our premium research, you can check out the Macro Intelligence Report (MIR) by [clicking here](#).

Directive #2: Train You In The Art Of Market Speculation

We want to teach you everything we know about markets.

Our Investment Handbook is a good place to start. It covers

our entire trading strategy from start to finish. Follow the link below and enter your email to get it delivered straight to your inbox.

You can review our other free educational materials on our Training page [here](#). And for more special reports like our Handbook, head over to [this page](#).

We also created 2 premium video courses that cover global macro investing and price action. To get access to those, [click here](#).

Directive #3: Provide You With A Solid Community

The Macro Ops community is filled with diverse traders from around the world, all sharing investment ideas, trade theory, and boots-on-the-ground research. The bigger this network grows, the more we all learn and profit. To join our community and become an Operator, sign up below. We'll also send you our Friday Macro Musings every week – a quick bulleted email of interesting market thoughts, charts, and articles we've come across in our research.

And if you're interested in taking your trading to the next level, check out the Macro Ops Hub. The Hub includes:

- A growing and evolving set of global macro tools and resources
- Direct access to the Macro Ops team and our years of experience in the hedge fund world
- A front row seat to every trade we make in both our model portfolios
- Entrance to the Comm Center, an elite private forum with Operators from around the world
- And a key to the trader's Vault which includes all our

training material alongside our two trading courses
